1. Introduction

Sharples Environmental Services cc has been appointed by SNA Civil and Structural Engineers (PTY) LTD on behalf of the Western Cape Government (WCG) Department of Transport and Public Works (the Applicant) to compile a Maintenance Management Plan (MMP) for the periodic maintenance of TR03103, MR00295, MR00294, DR01356, OP06046 and associated culverts and bridges near Montagu, Western Cape (Region 2).

This Public Participation Plan is solely for the submission of the MMP, all comments received will be sent to the WCG Department of Transport and Public Works for their further attention. This plan does not involve the submission of subsequent MMPs or iterations of the MMP.

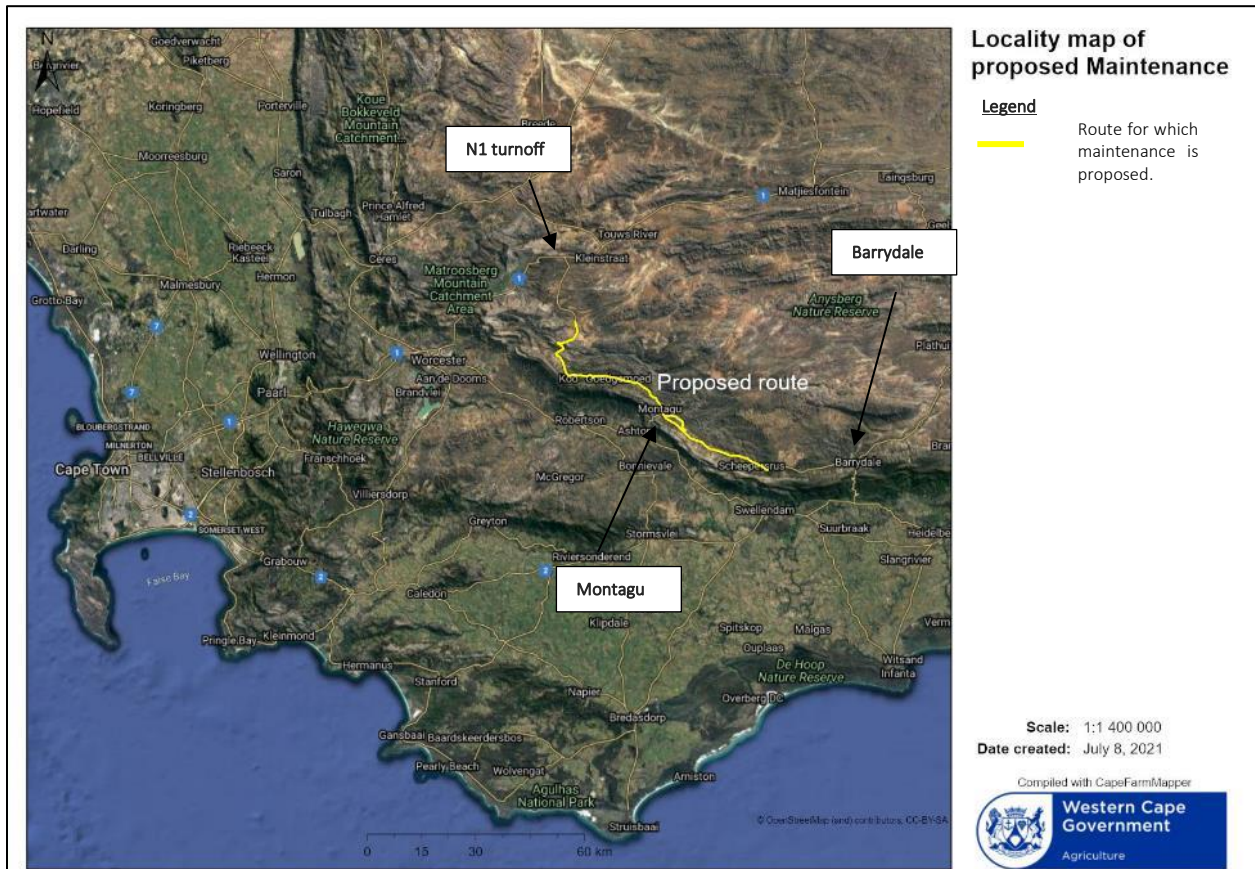

Figure 1: Locality of proposed development

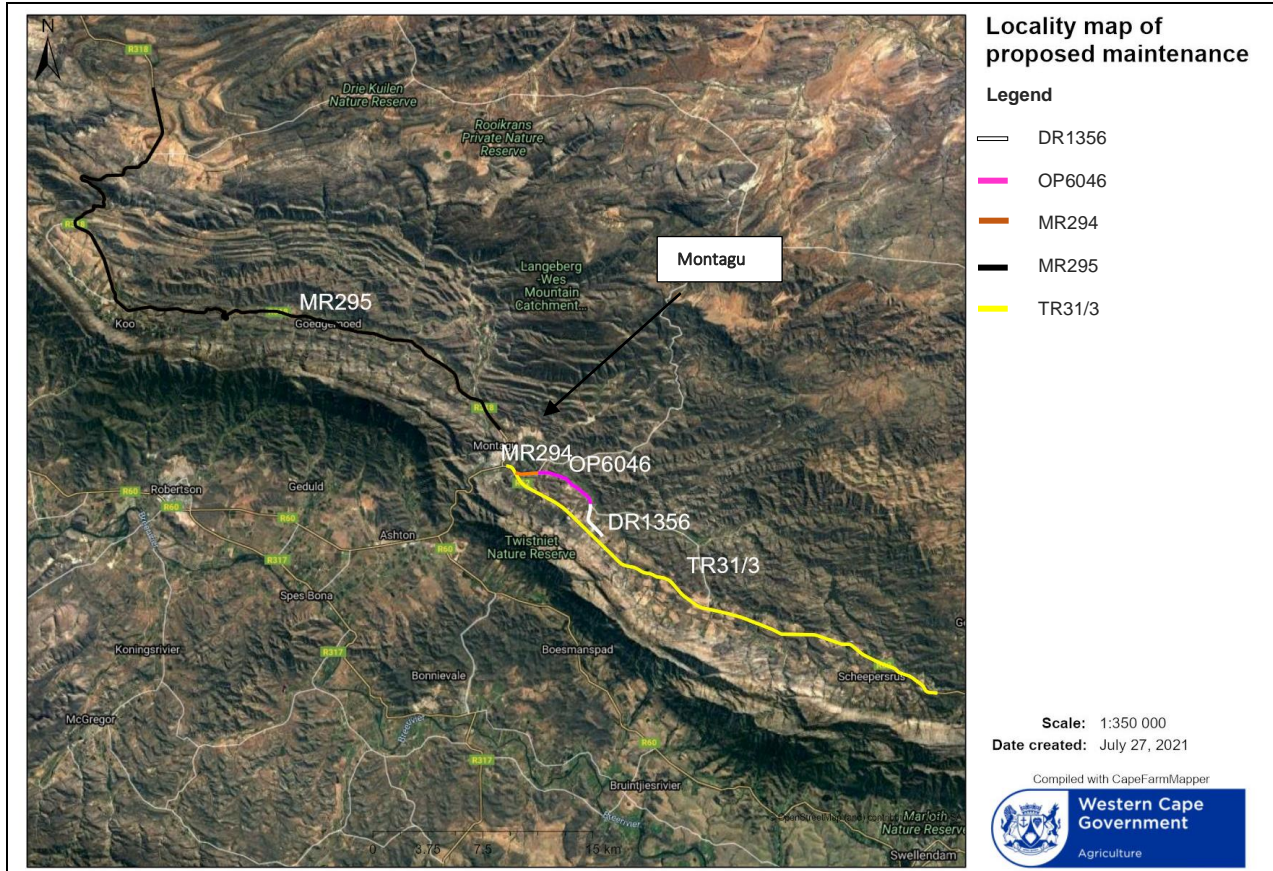

Figure 2: Locality of section requiring proposed maintenance

LOCATION DESCRIPTION

The route for which maintenance is proposed is situated between Barrydale, Montagu and the N1 turn off to Touws River, within the Langaberg-Wes Mountain catchment area (Figure 1 and Figure 2). The route is situated in an area approximately 180 kilometers northeast from Cape Town in the Western Little Karoo. The route proposed for maintenance is shown to be divided into 3 carriage ways, the first being North of Montagu – MR295, the second exits Montagu in a south-easterly direction, capsulating the MR294, DR1356 and OP6046 carriage ways. The third carriage way also exits Montagu in a south-easterly direction towards Barrydale - TR31/3. All works proposed fall within the road reserves of TR03103, MR00295, MR00294, DR01356 and OP06046.

A segment of the route proposed for maintenance is situated within the Gouritz Cluster Biosphere Reserve (GCBR). Major watercourses within the region include the Koo, Keisie, Kinga and Kruis Rivers. None of the proposed works lies within a private nature reserve or protected area.

DESCRIPTION OF PROPOSED ACTIVITY

According to the proposal provided by SNA Engineers (1 April 2021), the following maintenance activities are proposed as part of the periodic maintenance of TR03103, MR00295, MR00294, DR01356, OP06046 and associated infrastructure (Table 1).

Road works

All roads proposed to be resealed are single carriageways and are situated in the road district falling under the jurisdiction of the Paarl District Roads Engineer (DRE). The Cape Winelands District Municipality is the maintenance agent for the WCG.

Work envisaged to be undertaken regarding Main Road works will include the following:

- Establishment on site.
- Provision of offices and laboratory for the Employer's Agent's site personnel.
- Importing of construction materials from commercial sources.
- Setting-out of the Works.
- Accommodation of traffic.
- Application of texture slurry on identified sections of the road (excluding sections to be reworked).
- Repair of identified defects as shown on the drawings.
- Rut filling.
- Reseal of TR31/3, MR295, MR294 and DR1356 with a R14 single seal (14 mm aggregate) using S-R2 bitumen-rubber binder.
- Reseal of OP6046 with a 7 mm single seal and fog spray by hand (Labour Enhancement).
- Side and cross drainage improvements.
- Repair of gabion retaining walls on MR295 between km 50.070 – km 50.190 LHS, km 50.190 – km 50.350 LHS and km 50.74 – km 50.76 RHS.
- Roadside furniture maintenance and/or improvements.

The following segments of road are proposed for resealing in and tabulated in Table 1.

- Resealing of TR03103 (TR31/3) from km 1.22 to km 33.00
- Resealing of MR00295 (MR295) from km 20.00 to km 75.49
- Resealing of MR00294 (MR294) from km 0.00 to km 1.59
- Resealing of DR01356 (DR1356) from km 13.06 to km 17.47
- Resealing of OP06046 (OP6046) from km 0.75 to km 3.22

Accesses

- Major accesses to be upgraded, if required.
- All major surfaced accesses to receive a 30 mm asphalt overlay. A slurry will be applied on intersections where ravelling of the seal occurs due to truck movements.
- Concrete edge beams to be installed at all accesses/intersections.

Side drains

- Existing unlined open drains will be cleared and shaped. Concrete lined side drains and subsoil drainage to be constructed at limited areas to WCG specifications.

Bridges

Riet River bridge 5739

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Minor cracks in surfacing adjacent to bridge joints.

Public Participation Plan

- Install 700 mm wide “TRC-GRID 30” geosynthetic grids at abutment joints between concrete/layerworks and surfacing due to the cracking evident at this location and the absence of adequate joints.

Kruispad River bridge 5740

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Repair minor spalling and cracking on pier head.
- Remove loose piece of concrete slab under bridge.
- Install outlet protection and repair existing apron slab.

Scheepersrus River bridge 5741

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Replace expansion joints with new Thormajoints.

Koo River bridge 3064

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Install gabion protection at inlet abutment RHS.
- Extend abutment wingwall at outlet abutment RHS.
- Install 700 mm wide “TRC-GRID 30” geosynthetic grids at abutment joints between concrete/layerworks and surfacing due to the cracking evident at this location and the absence of adequate joints.
- Replace pier expansion joints with new Thormajoints.
- Grit blast parapets and apply a protective coating.

Kiesie River bridge 3065

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Install 700 mm wide “TRC-GRID 30” geosynthetic grids at abutment joints between concrete/layerworks and surfacing due to the cracking evident at this location and the absence of adequate joints.
- Grit blast parapets and apply a protective coating.

Kiesie River bridge 5581

- Install river name signs.
- Clear flow paths at inlet and outlet.
- Replace expansion joints with new Thormajoints.
- Grit blast parapets and apply a protective coating.
- Exposed pier piles to be protected by means of mass concrete pumped underneath the foundations and protected with a layer of packed large riprap, 750 mm minimum diameter placed along the foundations.

Major Culverts

- Clear flow paths at inlet and outlet.

Public Participation Plan

- Break out loose concrete at soffit joints and repair by means of crack injection and a non-shrink grout.
- Crack sealing where required.
- Install scour protection at the outlet by means of gabion boxes and mattresses.

Minor Culverts

In general, the following remedial work is proposed on the lesser culverts:

- All flow paths must be cleared of silt and vegetation.
- Culverts, which are not functional, working or in sound condition, are to be repaired to WCG standards.
- Protection works at outlets should be done to prevent scouring, where identified.
- Danger plates must be installed at culvert crossings.

While the project does require activities such as the infilling, depositing, dredging, excavation, removal or moving of more than 10 cubic meters of material, within a watercourse, it was determined that it **does not** trigger the need for NEMA authorisation as this is regarded as a maintenance activity. Should it have been a new activity, or viewed as an expansion of an activity, then Listing Notice 1 Activity 54 of NEMA would have applied, and environmental authorisation would have been required through a basic assessment application to the DEADP. However, the activities of this specific project are seen to be excluded from any listed activity under NEMA.

In order to be compliant with the requirements of the Information Document for the Development of a Maintenance Management Plan for a Watercourse (2017), the National Environmental Management Act (Act 107 of 1998) (NEMA) and the Environmental Impact Assessment (EIR) Regulations, this Public Participation Plan has been developed to indicate the proposed Public Participation efforts relating to the proposed periodic maintenance of TR03103, MR00295, MR00294, DR01356, OP06046 and associated infrastructure near Montagu, Langeberg Local Municipality, Western Cape.

2. Public Participation Plan

Activity in accordance with point 4.2 of the Information Document for the Development of a Maintenance Management Plan for a Watercourse	Requirements	Proposed
<p>(i) Given written notice to the owner(s) or person(s) in control of the land if the person(s) undertaking the maintenance activity(ies) is not the owner or person in control of the land.</p> <p>(ii) Given written notice to non-participating adjacent landowners (up to 1km upstream and downstream from furthest upstream and downstream maintenance site and opposite side of the river banks) of the development of the MMP. <i>This must also include general notice to adjacent WUA or IB of the proposed MMP development if application is made by a WUA or IB.</i></p> <p>(iv) Given written notice to any organ of state having jurisdiction in respect of any aspect of the activity(ies) proposed within the development of the MMP.</p> <p>(v) Provide written notice and confirmation to the relevant Water Users Association (WUA) or Irrigation Board (IB), of the development of the MMP <i>(if a MMP is not requested and managed through a WUA/IB).</i></p>	<p>You are required to notify any and all potential interested and affected party(ies) of the proposed activity(ies) and allow them the opportunity to comment on the MMP for a watercourse.</p> <p>It is noted, that for the development of MMPs for watercourses within the urban area, by Municipalities, public notice can be undertaken through the advertisement of the development of a MMP within local/community newspapers for the respective areas, with the relevant evidence of such an advertisement included in the final submission.</p>	<p>An extensive I&AP database has been compiled, which identifies affected adjacent landowners, authorities (WUA/IB), organs of state and other affected parties.</p> <p>A summary of the means proposed to notify the various I&APs has been included in the section below. These include email notification, direct telephonic calls, Whatsapp messages, a site notice and advertisement.</p> <p>Figure 3 and 4 shows the identified properties (up to 1km upstream and downstream from furthest upstream and downstream maintenance site and opposite side of the river banks) for which the owner or person in control may be registered as I&APs and provided with written notification in respect of any aspect of the activity(ies) proposed within the development of the MMP.</p> <p>An advertisement will be placed in the local newspaper to notify the public of the proposed maintenance and provide details as to how an I&AP can obtain the documents and provide comment.</p>
<p>(iii) Stakeholder meeting held for all participating and non-participating landowners, in which details and methodology of MMP is</p>		<p>Should the need arise for an information sharing session, a virtual meeting will be set up during which the Engineer, Client and any required</p>

<p>presented. A minimum of two meetings are required, to present on the development of the plan and a final draft version of the plan.</p>		<p>specialist will present on the proposed Maintenance Management Plan. I&APs will be notified about the stakeholder meeting at the start of the PPP. I&APs without access to internet will be contacted telephonically (at applicants cost) and information provided verbally. This will be handled on a case-by-case basis. Participants will be given the opportunity to post questions to the presenters, which will be answered in a Q&A session. Any virtual meetings held will be recorded and made available to all registered I&AP's.</p>
<p>(v) Provided written notice and confirmation to the relevant Water Users Association (WUA) or Irrigation Board (IB) of the development of the MMP, if applicable</p>		<p>The relevant Water Users Association and/or Irrigation Board will be provided with written notice and confirmation of the proposed maintenance.</p>
<p>Activity in accordance with regulation 41(2)(a) to (d) of the EIA Regulations</p>	<p>Requirements</p>	<p>Proposed</p>
<p>(a) fixing a notice board at a place conspicuous to and accessible by the public at the boundary, on the fence or along the corridor of— (i) the site where the activity to which the application or proposed application relates is or is to be undertaken; and (ii) any alternative site;</p>	<p>Proponents/ applicants, EAPs, specialists and professionals, where relevant, must: - ensure that all reasonable measures are taken to identify potential I&APs for purposes of conducting public participation on the application; and - ensure that, as far as is reasonably possible, taking into account the specific aspects of the application-</p>	<p>Notice board fixed as per Figure 3.</p>
<p>(b) giving written notice, in any of the manners provided for in section 47D of the Act, to— (i) the occupiers of the site and, if the proponent or applicant is not the owner or person in control of the site on which the activity is to be undertaken, the owner or person in control of the site where the activity is or is to be undertaken and to any alternative site where the activity is to be undertaken;</p>	<p>(a) information containing all relevant facts in respect of the application or proposed application is made available to potential I&APs; and (b) participation by potential or registered I&APs has been facilitated</p>	<p>An extensive I&AP database has been compiled, which identifies affected adjacent landowners, authorities (WUA/IB), organs of state and other affected parties. A summary of the means proposed to notify the various I&APs has been included in the section below. These include email notification, direct telephonic calls,</p>

Public Participation Plan

<p>(ii) owners, persons in control of, and occupiers of land adjacent to the site where the activity is or is to be undertaken and to any alternative site where the activity is to be undertaken;</p> <p>(iii) the municipal councillor of the ward in which the site and alternative site is situated and any organisation of ratepayers that represent the community in the area;</p> <p>(iv) the municipality which has jurisdiction in the area;</p> <p>(v) any organ of state having jurisdiction in respect of any aspect of the activity; and</p> <p>(vi) any other party as required by the competent authority;</p>	<p>in such a manner that all potential or registered I&APs are provided with a reasonable opportunity to comment on the application or proposed application.</p> <p>In ensuring the above, applicants and EAPs, in addition to the methods contained in Chapter 6 of the EIA Regulations, or as part of reasonable alternative methods proposed in terms of regulation 41(2)(e) of the EIA Regulations, may make use of the following non-exhaustive list of methods :</p>	<p>Whatsapp messages, site notice and advertisement.</p>
<p>(c) placing an advertisement in—</p> <p>(i) one local newspaper; or</p> <p>(ii) any official Gazette that is published specifically for the purpose of providing public notice of applications or other submissions made in terms of these Regulations;</p>	<p>emails, websites, Zero Data Portals, Cloud Based Services, or similar platforms, direct telephone calls, virtual meetings, newspaper notices, radio advertisements, community representatives, distribution of notices at places that are accessible to potential I&APs.</p>	<p>An advertisement will be placed in the Local newspaper to notify the public of the proposed maintenance and provide details as to how an I&AP can obtain the documents and provide comment.</p>
<p>(d) placing an advertisement in at least one provincial newspaper or national newspaper, if the activity has or may have an impact that extends beyond the boundaries of the metropolitan or district municipality in which it is or will be undertaken: Provided that this paragraph need not be complied with if an advertisement has been placed in an official Gazette referred to in paragraph (c)(ii)</p>		
<p>(e) using reasonable alternative methods, as agreed to by the competent authority, in those instances where a person is desirous of but unable to participate in the process due to—</p>		<ul style="list-style-type: none"> • I&AP's who do not have access to email will be notified of the process via n sms or Whatsapp medium if appropriate. If the I&AP does not have access to either an email

Public Participation Plan

<p>(i) illiteracy; (ii) disability; or (iii) any other disadvantage</p>		<p>or cellphone, they will be physically notified in line with Covid Protocols.</p> <ul style="list-style-type: none"> Information containing all relevant facts in respect of the application or proposed application will also be circulated in this way if appropriate. If we are made aware of any I&AP with illiteracy, disability or other disadvantages, we will engage with such I&AP to ensure their issues are noted by accommodating the I&AP in a unique way. i.e Verbal explanations for those who are blind or the utilisations of visual aids for those who are illiterate, involving the I&APs family and guardians to ensure that the I&AP is afforded an equal opportunity.
<p>Activity in accordance with regulation 4(1)(a) to (c) of the EIA Regulations</p>	<p>Requirements</p>	<p>Proposed</p>
<p>4(1) Unless indicated otherwise, after a competent authority has reached a decision on an application, the competent authority must, in writing and within 5 days– (a) provide the applicant with the decision; (b) give reasons for the decision to the applicant; and (c) where applicable, draw the attention of the applicant to the fact that an appeal may be lodged against the decision in terms of the National Appeals Regulations, if such appeal is available in the circumstances of the decision.</p>	<p>Proponents/ applicants, EAPs, specialists and professionals, where relevant, must ensure: (b) participation by potential or registered I&APs has been facilitated in such a manner that all potential or registered I&APs are provided with a reasonable opportunity to comment on the application or proposed application.</p> <p>Applicants and EAPs, in addition to the methods contained in Chapter 6 of the EIA Regulations, or as part of reasonable alternative methods proposed in terms of</p>	<p>A summary of the means proposed to notify the various I&APs has been included in the section below. These include email notification, direct telephonic calls, Whatsapp messages, site notice and advertisement.</p>

Public Participation Plan

	<p>regulation 41(2)(e) of the EIA Regulations, may make use of the following non-exhaustive list of methods : emails, websites, Zero Data Portals, Cloud Based Services, or similar platforms, direct telephone calls, virtual meetings, newspaper notices, radio advertisements, community representatives, distribution of notices at places that are accessible to potential I&APs.</p>	
--	--	--

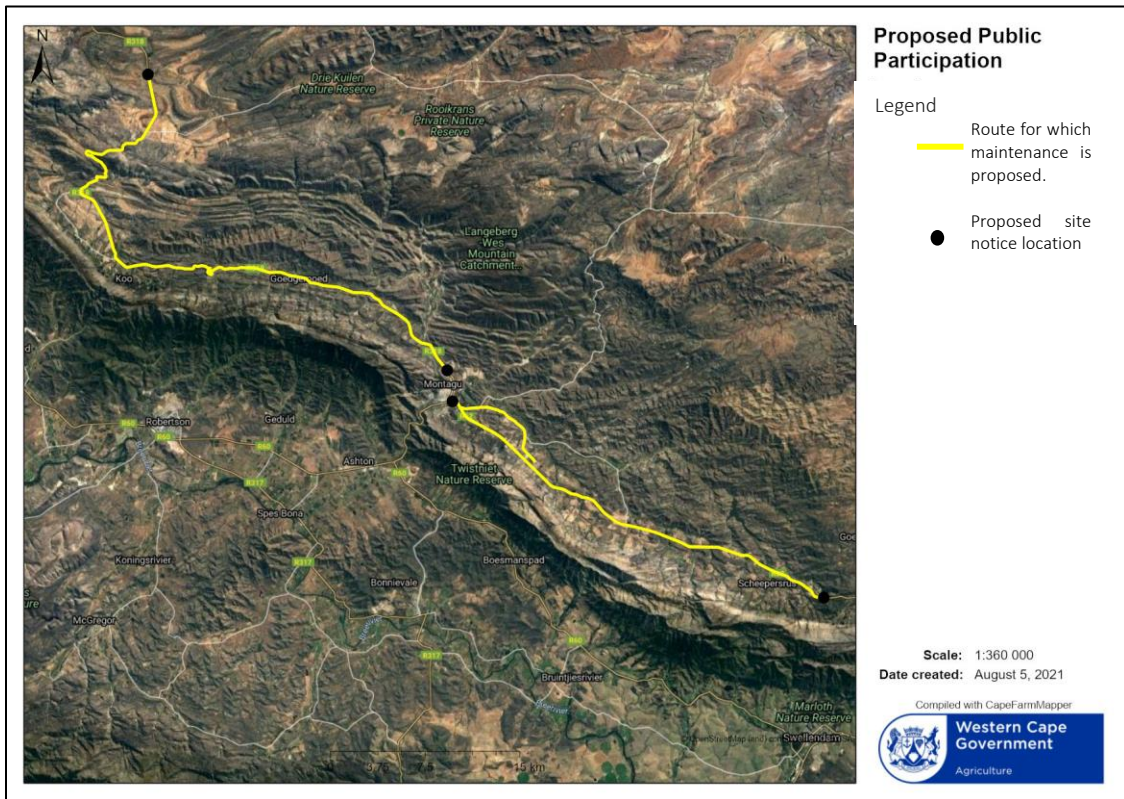

Figure 3: Proposed distribution of onsite notices

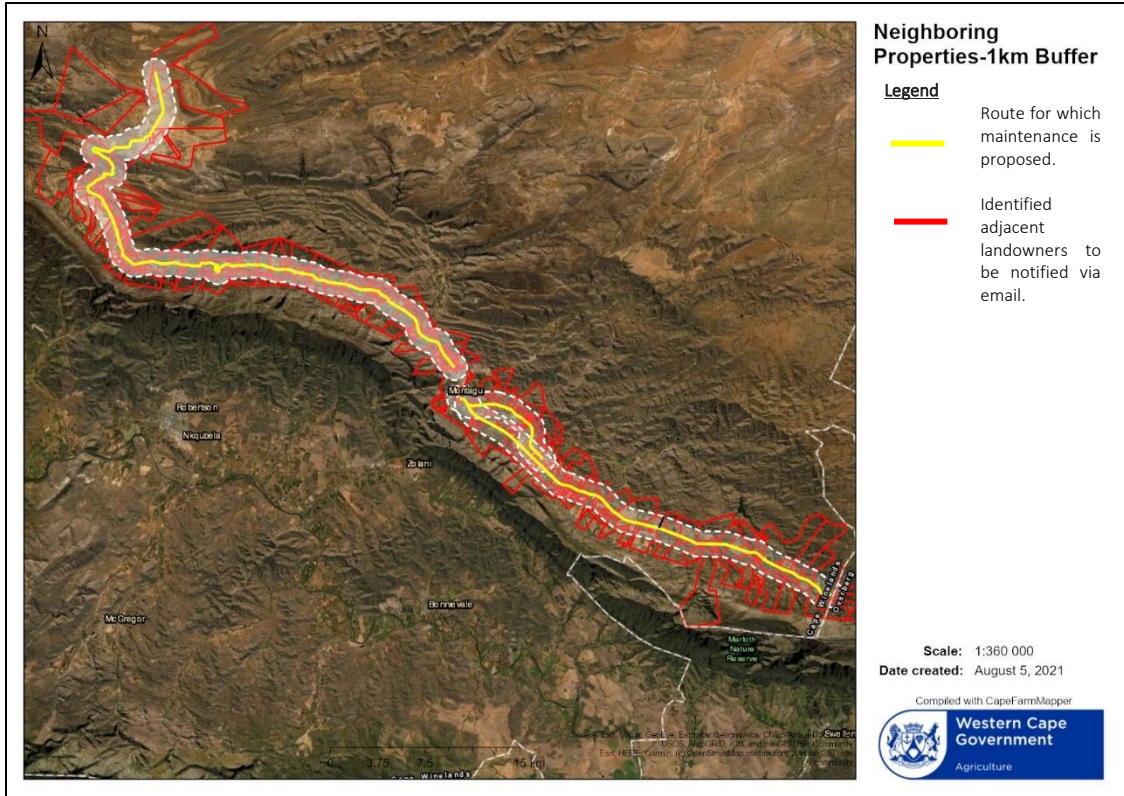

Figure 4: Identified adjacent landowners - up to 1km upstream and downstream from furthest upstream and downstream maintenance site, to be notified via an email notification.

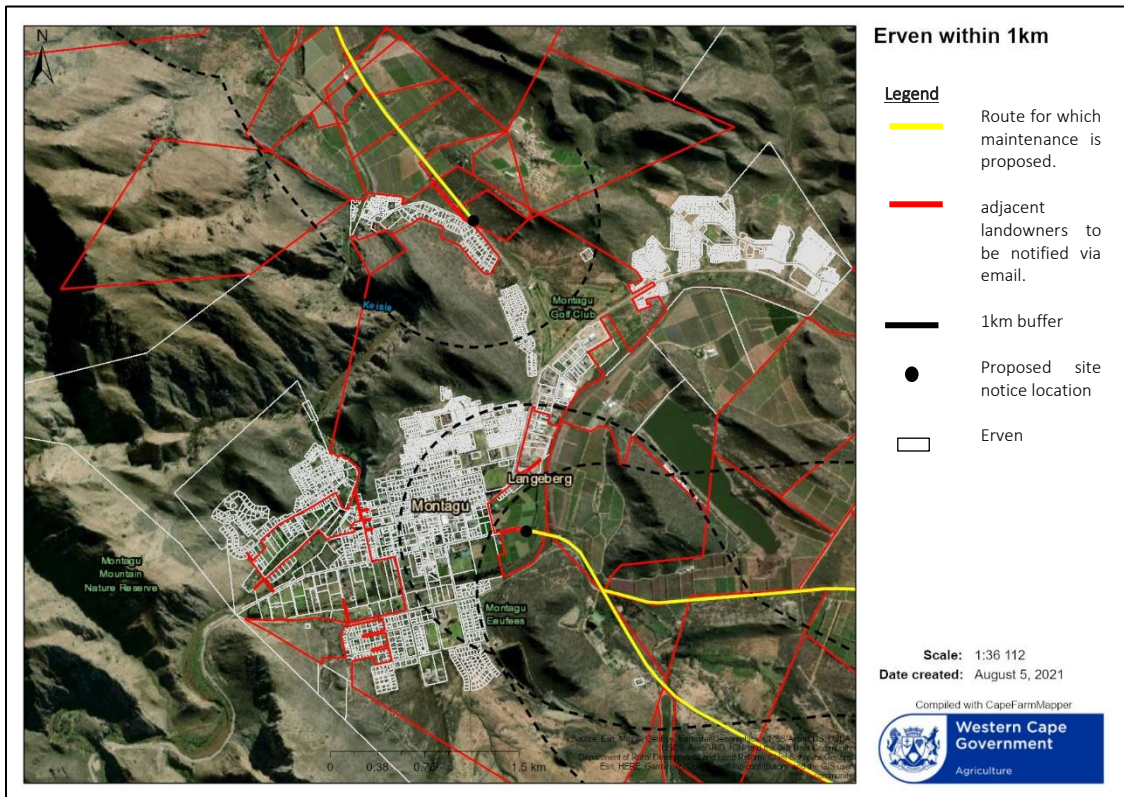

Figure 5: Numerous erven situated within 1km of the proposed maintenance

Due to the presence of congested erven situated within the town of Montagu, it would be impractical to notify each individual household. Site notices will be situated at the nearest point of proposed maintenance to the clustered Erven.

AVAILABILITY OF REPORTS FOR REVIEW & COMMENT

All documents / reports with annexures will be uploaded onto the SES website for download, review and comment. The SEscc website is designed to be mobile friendly, allowing those with only mobile internet the availability to view the relevant reports. On request, reports will also be shared via bulk online sharing sites such as WeTransfer.

Any person(s) wishing to register as an I&AP, who may not be able to obtain documents via WeTransfer or the SES website, are encouraged to contact us within the allotted public participation period, and we will make alternative arrangements where necessary. All arrangements made will ensure the safety of the I&AP by following Covid-19 protocols.

PUBLIC INFORMATION MEETING

Should the need arise for an information sharing session, a virtual meeting will be set up during which the Engineer, Client and any required specialist will present on the Maintenance Management Plan. Participants will be given the opportunity to post questions to the presenters, which will be answered in a Q&A session. Any virtual meetings held will be recorded and made available to all registered I&AP's.

4. Conclusion

SES confirms that all reasonable measures will be taken to identify potential I&APs for purposes of conducting the public participation on this application.

As far as is reasonably possible all information containing relevant facts in respect of this application will be made available to potential I&APs and participation by potential or registered I&APs will be facilitated in such a manner that all potential or registered I&APs will be provided with a reasonable opportunity to comment.

This public participation plan, once agreed with the competent authority, will be adhered to and any deviations, where relevant, will be identified and discussed with the authorities.
