Dear Ms Knoetze,

HERITAGE IMPACT ASSESSMENT, PROPOSED SCHOOL AND HOSPITAL DEVELOPMENT ON A PORTION OF RE FARM VAALE VALLEY 219 HARTENBOS, MOSSEL BAY LOCAL MUNICIPALITY: PROPOSED AMENDED EXTERNAL SEWER LAYOUT

Regarding the proposed Hartlands School and Hospital Development on a Portion of Re Farm 219, Hartlands, near Mossel Bay, I can confirm that the proposed amended external sewer layout (Figure 1), will not impact on important, local archaeological heritage resources, and that the findings of my original Heritage Impact Assessment (HIA) remain valid¹.

I also confirm that the proposed amendment will not require any changes or additions to the mitigation measures recommended in the original report.

Yours sincerely

Jonathan Kaplan

Director: ACRM
